News from FIIF Manager

What has worked well

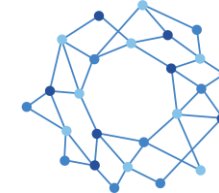

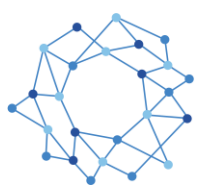

- Events
- Contacts and networking
- Presentations and discussions
- Arrangements

What could be improved

- More customer/user organizations
- More focus on concrete stuff
- Less focus on research
- Better facilitation in events
- Go international!

Ideas from members

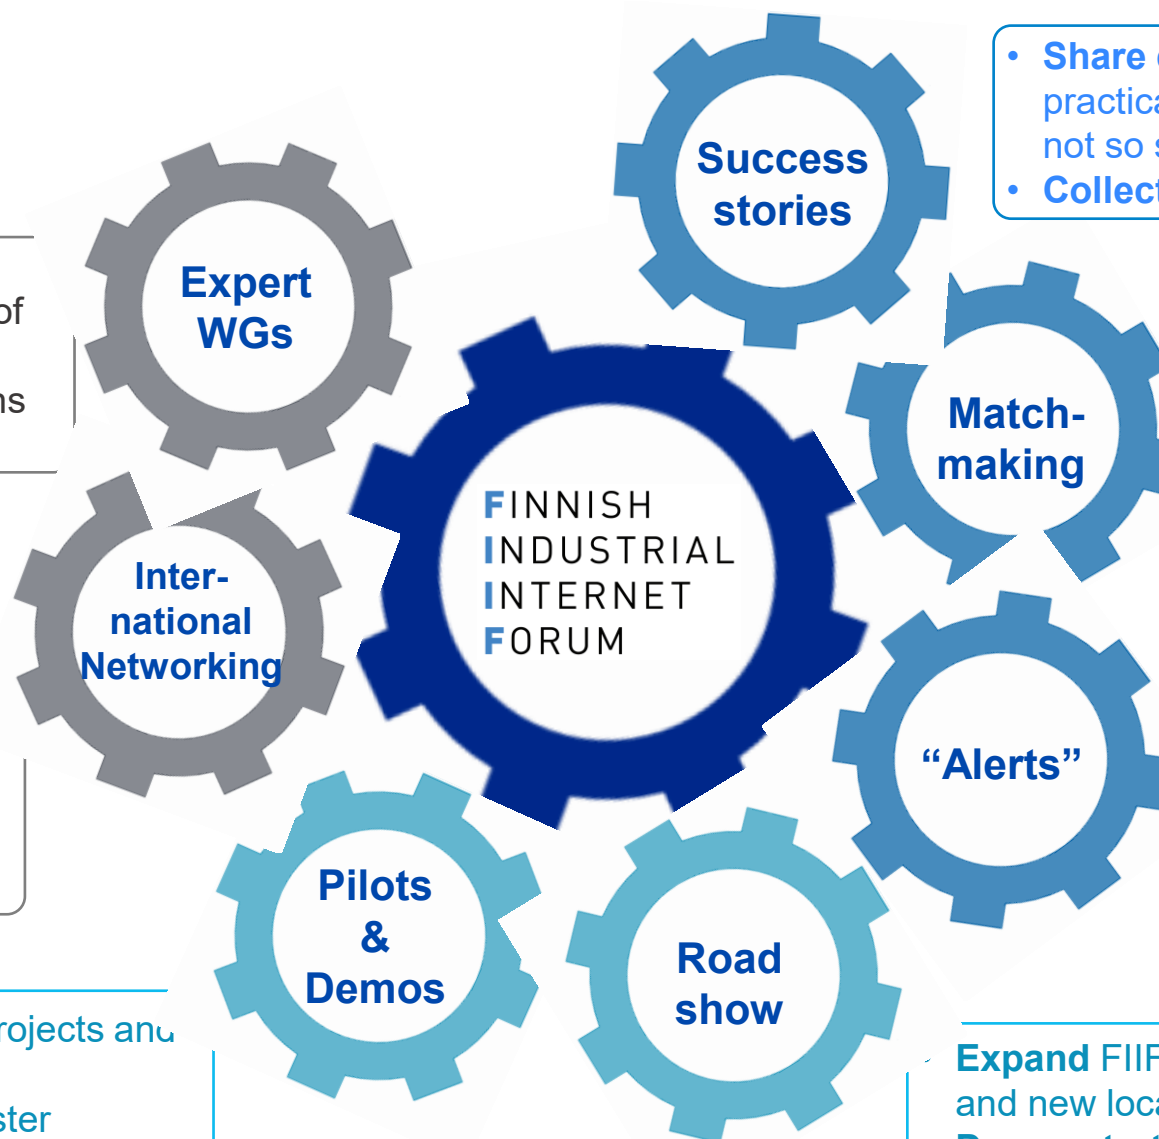

- More events outside capital area
- Webinars and other virtual events
- Events and sessions in English
- Link with other activities (hackathons, Demobooster)
- Guest speakers
- Link with US and German activities and initiatives
- Link with startups
- Workshops, organized brainstorming events
- More active match-making
- ...

- **Identify and launch** co-creation
- **Support** planning and launching of training and education programs
- **Create and distribute** publications and reports

- **Share information** about the international state-of-the-art
- **Benchmark** with the leading players

- **Arrange** fast pilot projects and demonstrations
- **Link with Demobooster**

- **Share experiences** and knowledge about practical implementations – both successful and not so successful
- **Collect use cases & success stories**

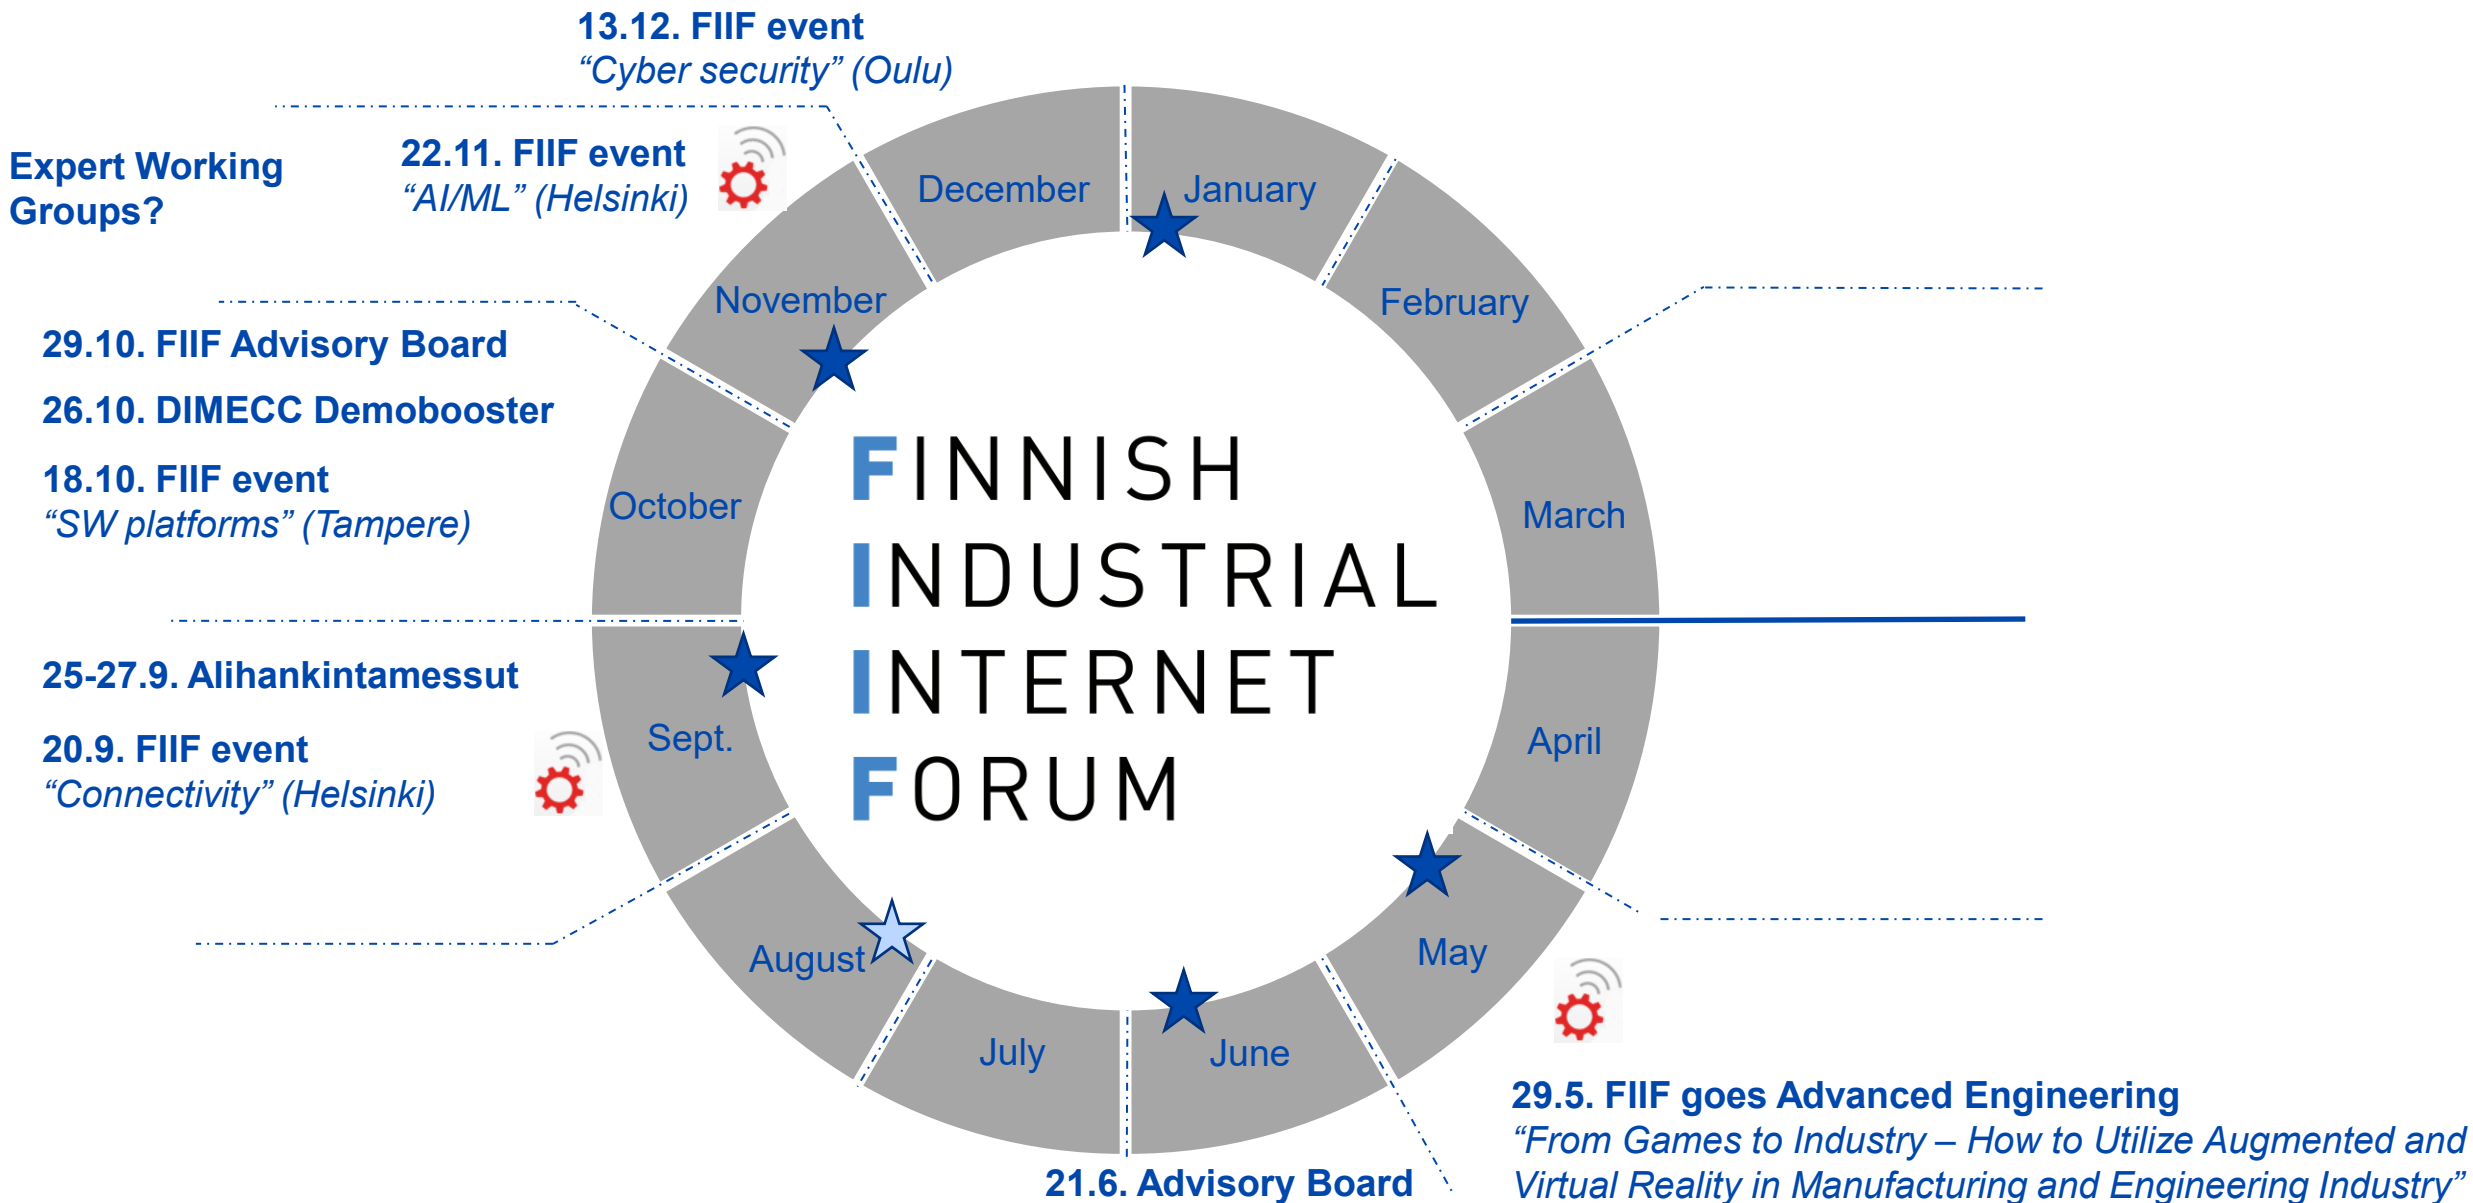

- **Bring together relevant players** (technology providers, solution builders, application developers, big and small companies, research organizations)

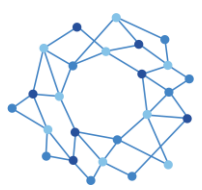

- **Identify** new and emerging opportunities and technologies
- **Screen** future trends

- **Expand** FIIF activities to new areas and new locations
- **Demonstrate real** solutions on site
