

MATERIAL SCANNING USING NEXT GENERATION OPTICAL SENSORS

Uula Kantojärvi
CTO, Spectral Engines

FiiF, 21.3.2019

COMPANY

FOUNDED: 2014

PERSONNEL: 25

REVENUE: 1.4 M€

OWNER:

75% Nynomic AG
25% Founders

HEADQUARTERS:

Helsinki, Finland

OTHER LOCATIONS:

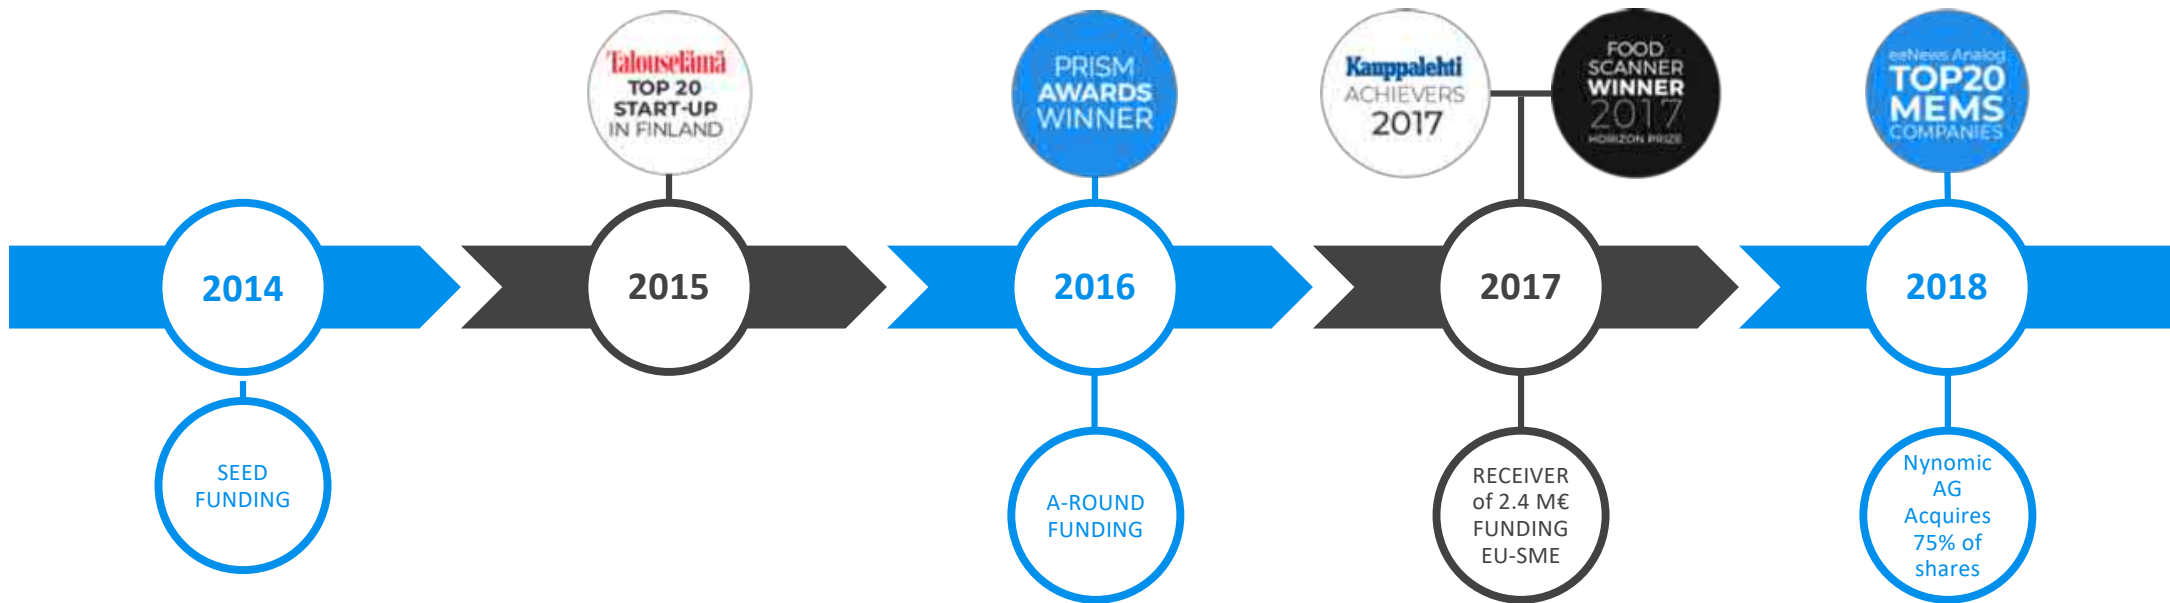

Oulu, Finland

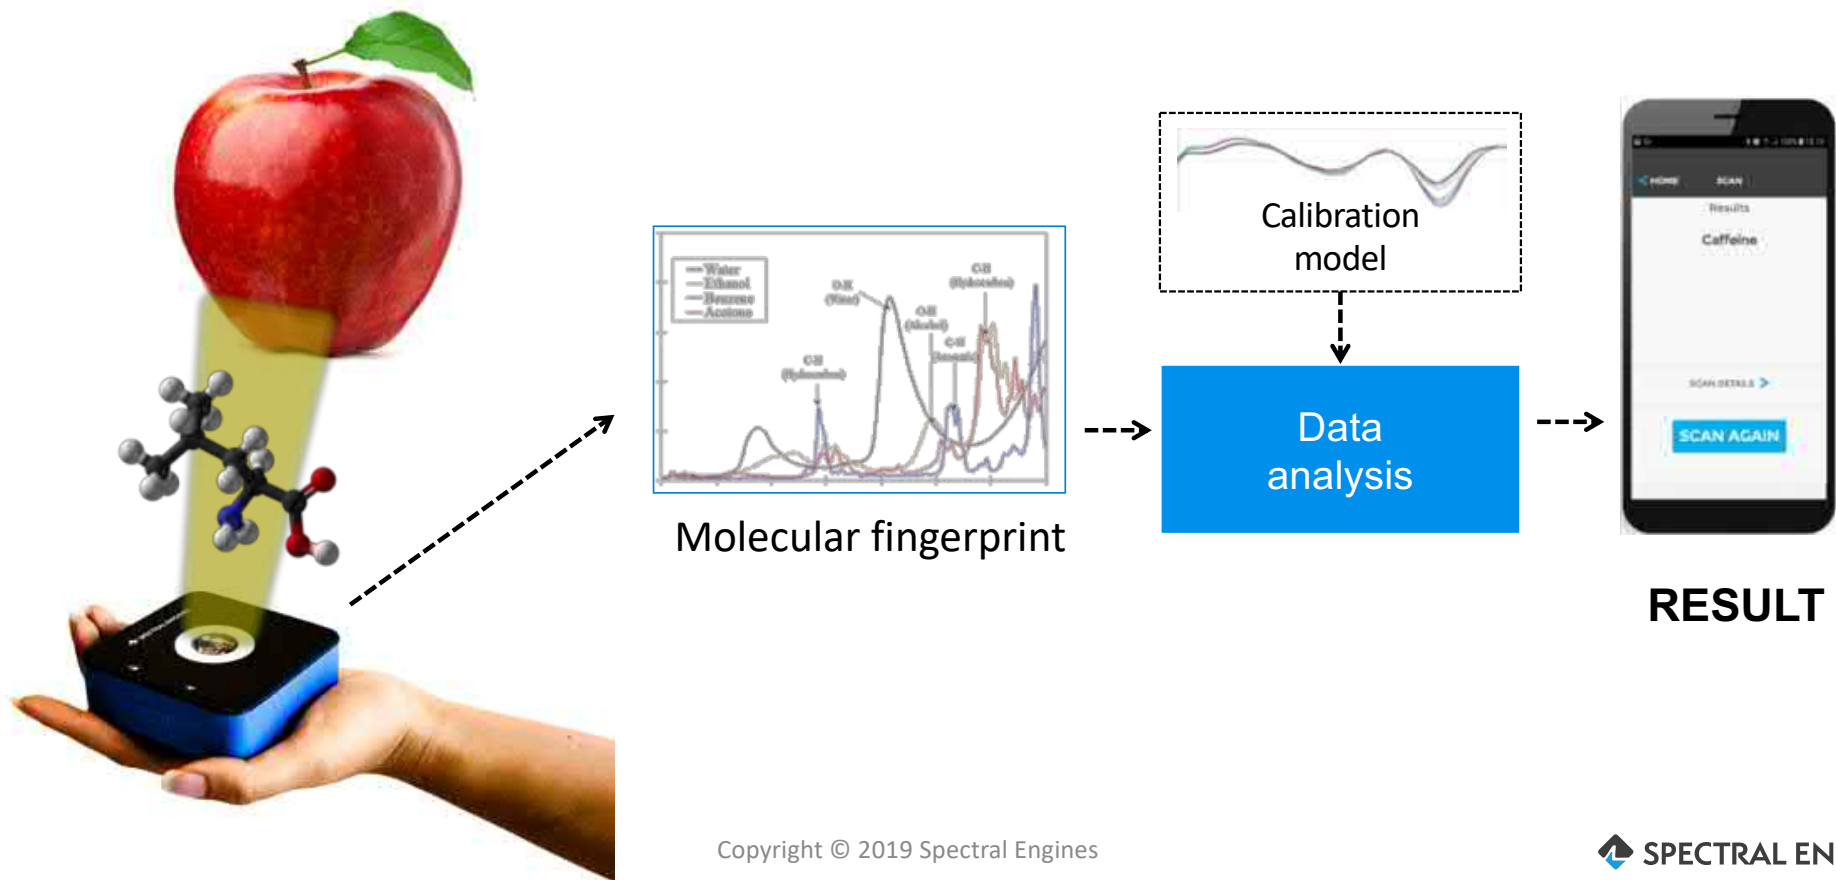

DISTRIBUTORS IN:

US & Germany (sales offices)
China (strategic partner)
Distributors (18 countries)

MAIN MILESTONES

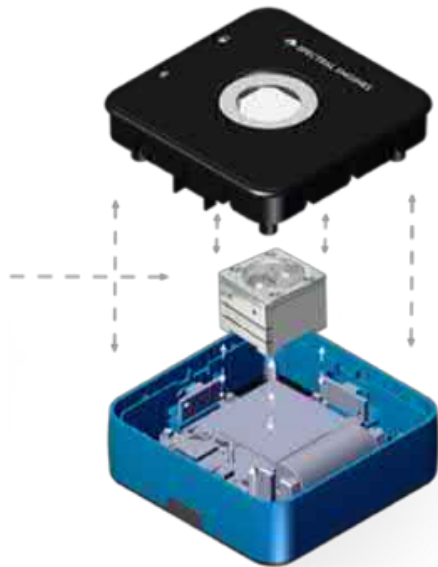

SPECTROSCOPY AS MATERIAL SENSING TECHNOLOGY

OUR PRODUCTS

GROUNDBREAKING SENSING SOLUTION

Mass producible hardware

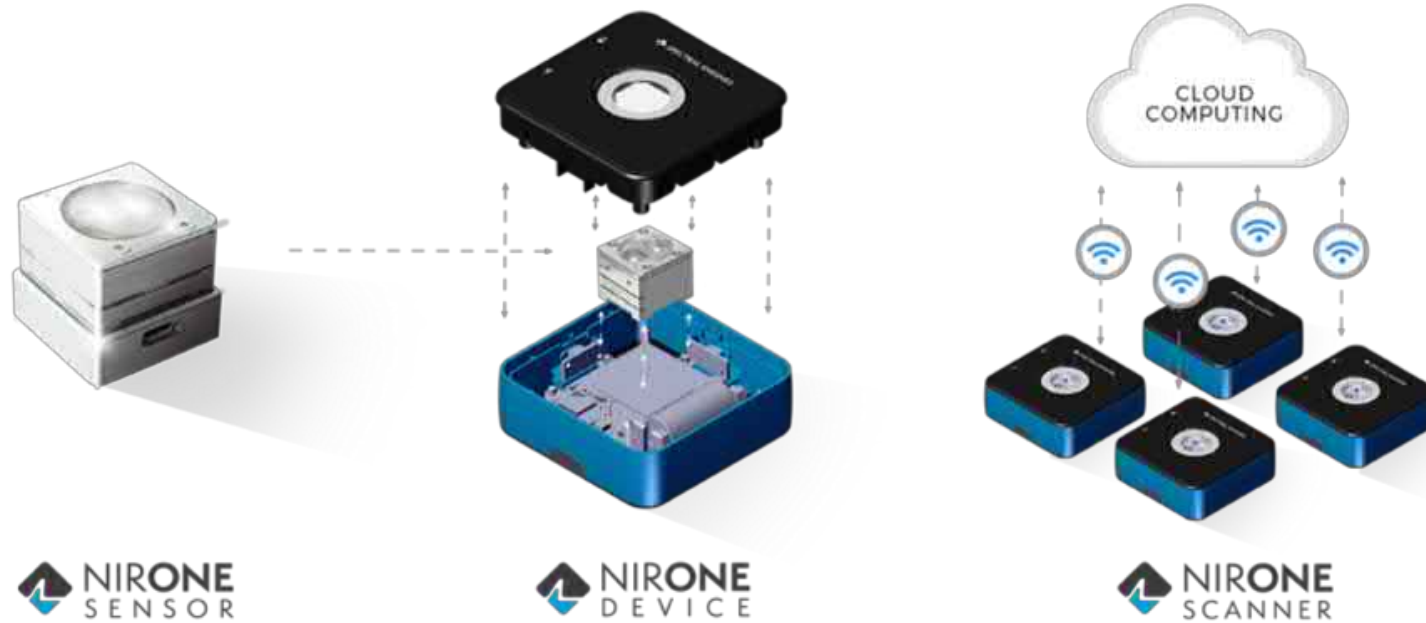

Cloud infra and fleet management

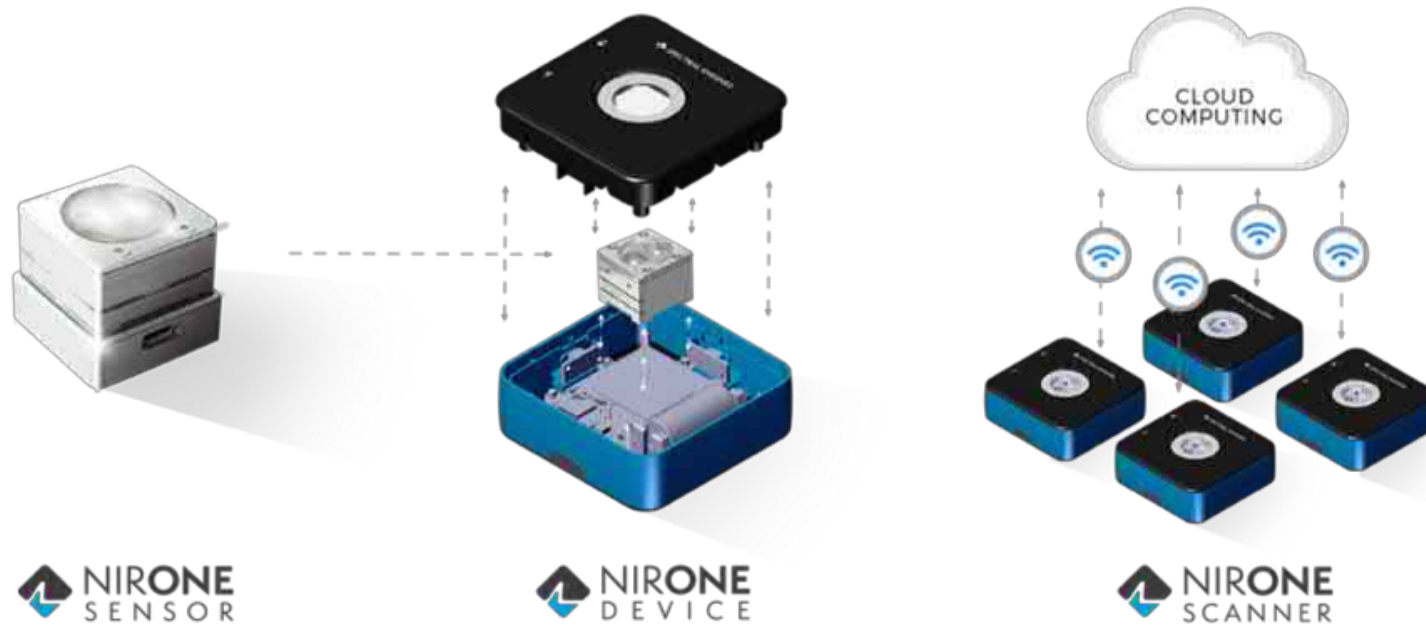

Applications and machine learning algorithms

NIRONE Sensors

NIRONE Sensors for system integrators to create leading products based on our technology

NIRONE Device

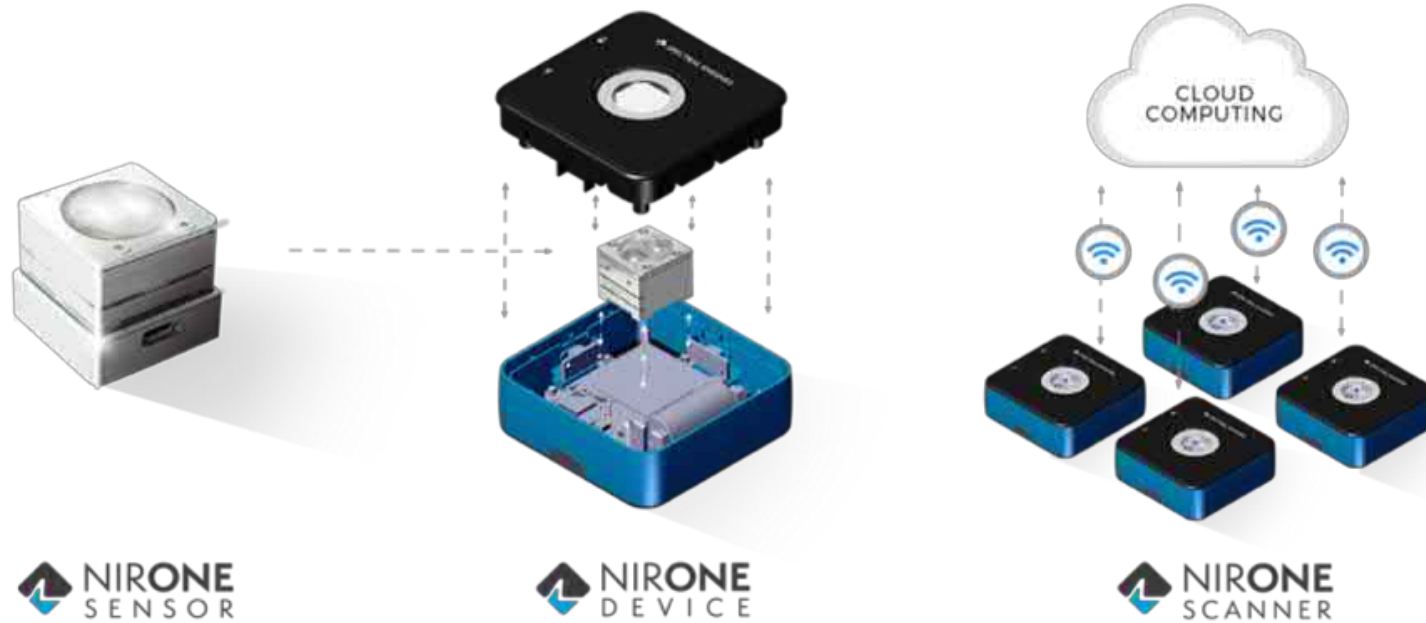

NIRONE Device provides a more complete material sensing solution in an integrated package.

 SPECTRAL ENGINES

NIRONE Scanner

NIRONE Scanner offers ready-made and modular building blocks to speed up market-entry

BENEFITS

High performance

Cost-efficient

Fast

Compact

Smart and connected

OUR **MARKETS**

PRACTICAL APPLICATIONS

now or in the near future

SMART AGRICULTURE

Quality control of raw materials and optimization of resources

Grains, tea, cocoa, coffee, feed etc. (moisture, fat, sugar, protein)

SMART INDUSTRY

Optimized performance and production, digitalization of supply chain

Solid powders or liquids in process industry, composition of plastics, nutrients, pharmaceuticals, ethanol, food, feed, beverages (moisture, sugar, protein, alcohol, drugs)

SMART HOMES

New applications for the digitalized homes

Concepts include textile sensing and automated washing machines, food scanning, smart refrigerators etc.

PORTABLE DEVICES

Easy on-site analyzers for non-experts

Inexpensive narcotics screening device for police, hand-held quality inspection tools, anti-counterfeit detector for pharmaceuticals, explosives identification

Smart Homes: Fabric Classification

- **Textile classification and washing machine program selection**
- Customer: Bosch-Siemens-Hausgeräte GmbH (BSH)

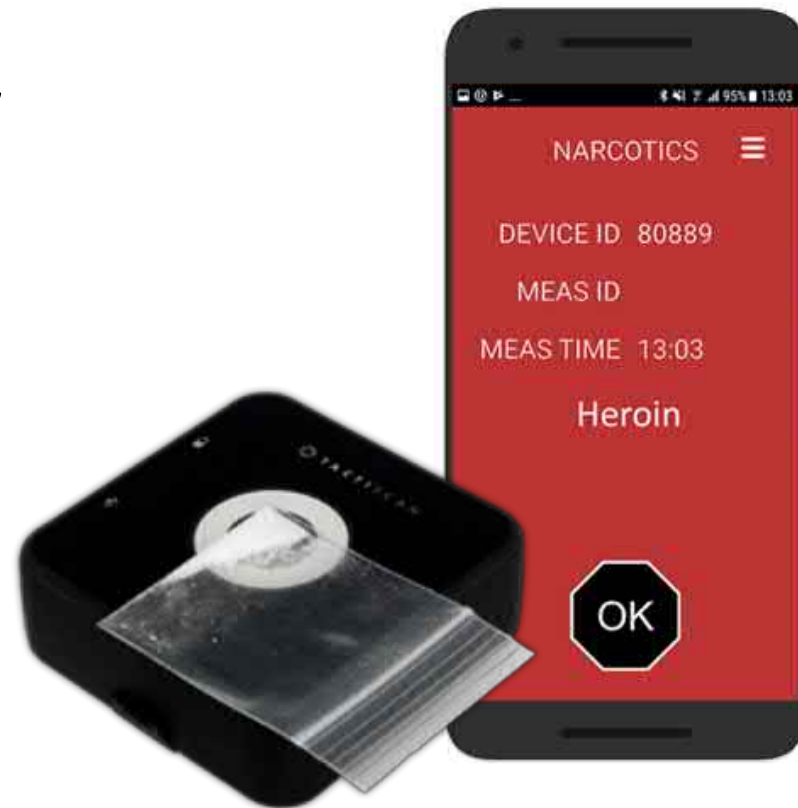

Smart Farming: Grain Analysis

- Portable grain analysis for farmers
- Customer: Branscan, UK

Portable **Devices**: Drug Detection

- **Narcotics screening device for law enforcement**
- Portable heroine, cocaine and methamphetamine analysis

Smart Industry: Ethanol Measurement

- Ethanol measurement in Chinese wine production
- Customer: Hanon

Thank you!
