#### WORKFORCE IN THE MANUFACTURING INDUSTRY

75% of workers are on the front-line

#### **INDUSTRIAL LEADERS FACE OPERATIONAL CHALLENGES**

Best-in-class Industrial organizations require new approaches for delivering relevant information to frontline workers

#### **Current state:**

**PDSVISION** 

- Time consuming to capture expertise
- Out-of-date paper-based instructions
- Inefficient and costly training
- Lack of documentation for compliance and safety

Inefficient Knowledge Transfer Difficulty keeping up-to-date

#### Inefficient Data Capture High risk of human error

Long Shelf Time Data may get lost

# IMPROVING MANUFACTURING THROUGHPUT

#### PROBLEM

- Changeover time is impacted by low proficiency or lack of documentation
- 9% of production is lost to waste and scrap
- Quality defects are missed and sent to customers

#### SOLUTION

- Vuforia Expert Capture and RealWear
- Expert operators record setups, change overs, and inspections processes
- Final procedures are published for machine operators

### EXPECTED IMPACT

- Reduce idle time by 95%
- Decrease scrap by 87%
- Increase training speed by 70%
- Estimated potential cost savings of \$.5M per factory
