FAME's mission is to  
*boost and promote* use  
of AM

**the WHAT**

... in order to serve  
*industrial*  
*companies*

**the WHO**

... in *collaborative,*  
*sustainable* and  
*innovative* ways

Profit People Planet

***“Sustainable additive manufacturing  
is Finland’s competitive edge.”***

# FAME Ecosystem covers the entire AM value chain

## The only absolute for Additive Manufacturing

The only undisputed truth for AM is that you must start with a 3D model (CAD, 3D scan...) of the part you want to print.

AI is here to change that.
